

Teamsters Canada Rail Conference Division #945

Brother and Sisters;

Line up integrity, as indicated on both our National and Division websites, is of considerable focus. It is recommended that every member maintain a journal that includes all aspects of the difficulties surrounding the attempts to be prepared for your tour of duty, including the inaccuracy of line ups.

In order to assist us, in dealing with the inaccuracy of line ups, every member affected should report the occurrence on the National's webpage directly or through our Division website.

In addition, it is recommended that every occurrence of an inaccurate line up, that requires a member to report for duty in a less than optimum condition, be reported as such on the safety hotline.

As well, please log all safety hotline reports on the Division webpage.

Executive Committee
Div#945
